

AVer™ Comm H300/H100

HD Video Conference System from Document Camera Leader AVerMedia

AVerComm is a unique video conference system that can revolutionize meeting rooms and classrooms, delivering true to life face-to-face communication with very low bandwidth. This show-and-tell experience and natural dialog flow helps increase productivity, improve relationships, expedite decision making processes and reduce operating costs; all without travel or boundary!

Why AVerMedia

AVerMedia® Information is the leading provider of digital multimedia presentation technology including document cameras and visual presenters. Our reputation for quality, support, and customer service are well known in the industry.

The AVerComm H Series combines the best H.323 features for uncomplicated usability and versatility into one streamlined offering for education as well as small to medium businesses. The total cost of ownership can fit easily into any IT budget and provides a positive return on investment by reducing travel costs and increasing connectivity.

Intuitive

From initial setup and installation to daily use, implementing the AVerComm H Series makes the daunting task of setting up a video conference room system a breeze! All features and functions are accessible within two menu levels, which are intuitive and user-friendly.

Versatile

The H300 is your full solution for every day and advanced video conference needs. Features include content sharing, dual screen mode, multipoint calling*, recording*, and image capture*!

All-Inclusive

Everything you need to setup and operate the system is included in one kit. There is no need to supplement with additional cables, speakers or other accessories. AVerMedia provides a wide range of customer service and tech support options along with a generous warranty period to provide secure ownership and peace of mind.

Industry and Standard Compliance

Both H300 and H100 models follow the H.323 industry standard and has been extensively tested with other common video conference systems on the market for compatibility.
