Content Packs
Available!

Results. That's what RM Easiteach is all about. Whatever the subject, whatever the grade level, whatever the interactive technology, RM Easiteach makes it simple to create engaging, interactive lessons that help students master and retain concepts more easily and effectively.

SAVE TIME. SAVE MONEY. MAXIMIZE YOUR TECHNOLOGY INVESTMENT.

RM Easiteach is the one easy to use software application for all your interactive technologies from whiteboards and projectors to wireless tablets and pointing devices. Rather than spend valuable time training teachers on multiple software applications for a variety of interactive systems just use RM Easiteach.

- Training on one software application saves time and money.
- Ready-made content packs for grades K-12 Math, English Language Arts, Science, as well as Educational Games are available.
- Content is correlated to all State Standards for Math, English Language Arts and Science.
- Teaching tools such as stopwatches, timers, sentence builders and place-value cards make the transition to interactive teaching seamless. And subject focused toolbars give educators all the resources they need to create exciting, stimulating lessons.
- Make use of engaging new technologies such as the NEW RM Easiteach Dance Mat.
- RM Easiteach makes it simple to adapt existing lessons, including those using Excel, Word, PowerPoint and video, for use with interactive technologies.

Examples of Formal and Informal Writing

Formal

There are many formal situations that require a formal situation marks the formal nature within a sentence.

The area around Somerton is popular with tourists because there are so many places to visit.

Shucks, yeah, I suppose I was upset by her dumping me.

It is possible to teach young children about persistence of vision and sound magnification.

So, I sit here, wondering why the last bus hasn't arrived yet.

Informal

Shucks, yeah, I suppose I was upset by her dumping me.

It is possible to teach young children about persistence of vision and sound magnification.

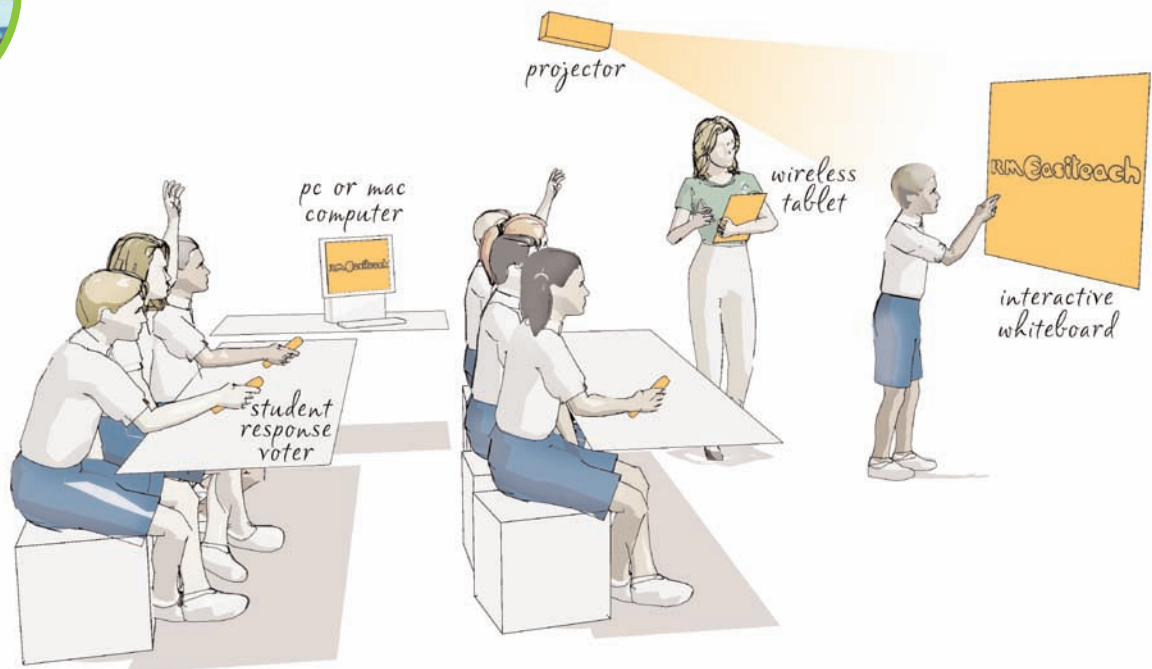

So, I sit here, wondering why the last bus hasn't arrived yet.

ENGLISH LANGUAGE ARTS

MATH

SCIENCE

Educators across the country are raving about the difference RM Easiteach is making in their districts and classrooms, and with their students.

Presidential Award winner and geometry teacher, Cindy Hasselbring explains how RM Easiteach has transformed math instruction in her Milan High School (Milan, MI) classroom.

"I'm motivated in that I can create better images for geometry. It's been a real time saver as I put my notes online for the students and post them to the web. Students now have the ability to browse the school portal for the class lesson. That's something they couldn't do before."

Choose the subject, choose the grade level, choose the activity.
RM Easiteach makes every lesson fun, engaging and effective.

Expand RM Easiteach's capabilities with the addition of subject focused toolbars and standards correlated content packs. Both RM Easiteach's toolbars and content packs make it simple for educators to get up and running with interactive technologies and increase their effectiveness in the classroom. Students will find the lessons exciting and motivating. With RM Easiteach students and teachers alike will be begging for more interactive lessons!

RM EASITEACH CURRICULUM TOOLBARS

Inspired by teachers and teaching experts, RM Easiteach's innovative and easy-to-use teaching tools are software equivalents of familiar teaching tools, including place-value cards for Math, sentence builder cards for English Language Arts, map building tools for Geography, and stopwatch and timer tools for Science. The RM Easiteach curriculum toolbars have been designed for use with Elementary, Middle and High School students.

MATH TOOLBAR

RM Easiteach Math is a whole-class teaching tool consisting of lots of familiar Math resources that come to life in an interactive environment. Tools included are: function machine, customizable number lines, number grids, fractions and graphs allowing you to make exactly what you need, plus circles, numbers algebra and symbols palate, and place value cards ranging from 0.0001 to 9 million.

ENGLISH LANGUAGE ARTS TOOLBAR

The English Language Arts tools are especially effective when teaching language at word, sentence and text levels. The 'split-screen' feature allows you to display text on one page and to drag words or blocks of text to another page for editing or reformatting. Tools included are: Word and sentence builder cards, add and remove punctuation, Cloze procedure, writing frames, spell checker, word highlight, speak words, repel text for desk top publishing and a timer to increase pace in lessons. All the tools work on any text typed directly onto the page or cut and pasted from elsewhere.

SCIENCE TOOLBAR

The Science toolbar allows you to integrate connected devices like digital and web cameras, electronic microscopes and desktop visualizers, to enable the projection of images to the whole class. These images can then easily be edited and interacted with using the toolbar. Tools included are: select image source, image capture, rulers, calipers, magnetic lines, stopwatch and timers, Science symbols and units.

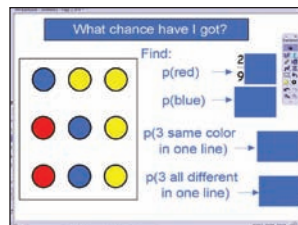

GEOGRAPHY TOOLBAR

Easiteach Geography provides a set of tools that are designed specifically to support the teaching of geography to students of all ages. Explore directions and routes, measure distances and even create your own maps. Tools included are: grid overlay, grid fill, grid reference reader, compass rose, navigator, scale reader, distometer, and map builder.

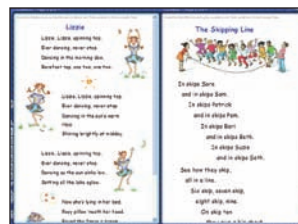

RM EASITEACH LESSON CONTENT PACKS CORRELATED TO STATE STANDARDS

Content Packs contain ready-made lesson activities that include comprehensive teaching notes with objectives, questioning strategies, and ideas for additional, related activities. These resources have been developed by or in consultation with teaching experts and are suitable for a range of learning styles. They are highly visual, very interactive, easy to modify... and most of all fun to teach with.

MATH

140 interactive math lessons, over 100 short mental math activities, 14 interactive teaching programs, and two math games. Grades K-12.

ENGLISH LANGUAGE ARTS

85 interactive lessons, 77 excerpts from OUP books - fiction, non-fiction and poetry, 50 writing frames and 200 spelling word lists. Grades K-12.

SCIENCE

41 lessons designed to focus on curriculum aspects that are a challenge to teach or visualize, 40 investigations, 60 concept cartoons, 18 Flash simulations, 12 videos, comprehensive science word lists, 350 extra pictures in the science multimedia bank, and 6 investigation templates. Grades K-12.

EDUCATIONAL GAMES PACK

14 math and language games, six that allow you to create your own questions.

Lessons are accessed through an intuitive navigation menu. As you customize lessons simply save them within a folder structure. This system makes it easy for teachers to share resources and customize lessons for different age groups and learning styles.

Creativity. Interactivity. Results.

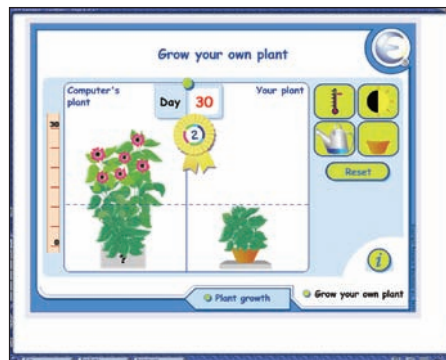

Teachers like RM Easiteach because it's easy to use and easy to integrate. But most importantly they like it because it motivates students and creates an interactive, creative classroom in which students excel. RM Easiteach...

- **Is designed specifically for the education community.** Educators and educational experts collaborate to create the software, content, lesson plans and games available from RM Easiteach.
- **Works across curriculum and grade-levels.** From learning addition and subtraction all the way to complex Physics problems, RM Easiteach provides tools to model and demonstrate concepts, ideas and processes in visual and engaging ways.
- **Increases the depth and pace of learning.** Students are motivated by the interactivity provided by RM Easiteach. Engaged students are focused students. Focused students perform better.

- **Improves student achievement.** Visual, interactive learning gets results. RM Easiteach enables teachers to create lessons that incorporate a variety of learning styles and tools to encourage concept adoption and retention.
 - o Use video clips, animation, charts, photos, sound clips, and more to capture students' attention and imagination. RM Easiteach enables the widest range of media integration on a single page.
 - o Use the Student Response Systems to gauge knowledge retention and encourage active participation in learning.
 - o Create memorable screens to help students grasp and recall difficult concepts.
 - o Involve students in their own learning with interactive lessons and resources.
 - o Quickly and easily tailor lessons to address the needs of students with special needs.

“I've been using RM Easiteach this year and I honestly see a huge difference in my student's motivation in learning.”
